

Half Day Defibrillation Course

Description

Cardiac Arrest is the biggest killer in this country, killing over 150,000 each year. A defibrillator could save many of these. Automated External Defibrillators are becoming more common in this country around workplaces.

This very practical course will allow suitably qualified personnel to safely use an AED competently and with confidence.

Duration

A 4hour course consisting of practical and theory work along with an assessment.

Syllabus

A range of subjects is covered including:

Assessment of the Situation
Dealing with an unconscious casualty Resuscitation
Heart Attacks

Certification

This course assumes the candidate can demonstrate resuscitation competently through an assessment at the start of the day. The qualification is valid for 6 months.

Numbers

A maximum of 6 students can be accommodated on this course.

Location

We are able to deliver this course on your site, subject to adequate room space reducing your costs in respect of additional time out and travelling.
